PERSONAL PROJECT

coffee shop Responsive website with modern style

- (<https://adi10886.github.io/coffeehome/>)

Landing page

- (<https://adi10886.github.io/soon/>)

Real Time Sign Language Recognition

- This project was done by me and my team for my final year project. buildup on python it help people who can't hear with this app we can help them to understand what other person is trying to say using our hand as a sign which ll show some text that will be the meaning of that sign by reading that text user can understand what other person is saying.

POSITION OF RESPONSIBILITY

- Team Representative for two group project and multiple seminar.
- Student coordinator of college's product development club.
